Generative AI for K-12 Educators

A two-part (free) workshop series will be delivered with video-conference technology.

Participants will need high-speed internet, a headset, and an electronic device to interact during live virtual sessions.

What is GAI?

- No prior coding experience is required.
- High-level overview of generative artificial intelligence (GAI).
- Demos of open and affordable educational resources.

What GAI Tools Are Suitable?

- Simultaneous breakout sessions.
- Exploration of generative AI tools for K-12 classrooms. For example: grading software, personalized learning software, smart tutoring systems, curriculum development tools, etc.
- Forum with panelists addressing ethical considerations in GAI adoption.

Tell Us Your Preference

Registration expires by March 22, 2024

Responses in registration for preferred days and times will be used to schedule the event at times that work for most.
